Action Bar is found at the top of every screen. It allows the users to navigate back and forward and create / select bookmarks.

- 1** Navigation.

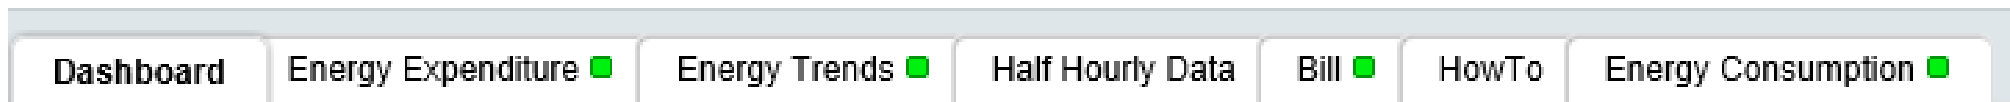

- 2** Undo / redo.

- 3** Lock / Unlock – Will keep a selection saved while moving onto different reports.

- 4** Current selection / add or remove bookmarks – Will bring up a box advising of the users current selections. You can add/remove bookmarks with these icons.

- 5** Selecting Saved Bookmarks – A drop down list of all user saved bookmarks for selection. A big time saver!

Easy index of all detailed reports available.
The summary information for most of the tabs
are found on the dashboard.

At the top of the page in **every tab**. Allows the user to drill in to the data to create bespoke reports. Very flexible. Remember you can bookmark for future use.

The screenshot shows the 'Energy Expenditure' tab with several key components highlighted by numbered callouts:

- 1**: Billing Calendar table with columns for Year (2016-2019) and Month (Jan-Dec), and a Period table with columns for months from Oct/2019 to Dec/2016.
- 2**: Filter panel with fields like AccountID, AccountName, GMPRN, MPRN, Tariff (set to Industrial (LEU)), CostCentreCode, and Address.
- 3**: Current Filters - Select the Rubber to Remove section, showing a table with Fields (MPRN) and Values.
- 4**: Search Box with a search icon and the text 'Type value to search'.

1 Select based on year, month & period.

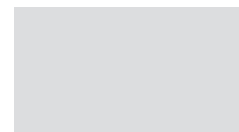

3 Filters that you can remove – ‘eraser’ to remove selection.

2 Summary of selection.

4 Free text search box.

At the top right hand corner of the detailed reports. This allows the user to print, export to excel or create an excel chart.

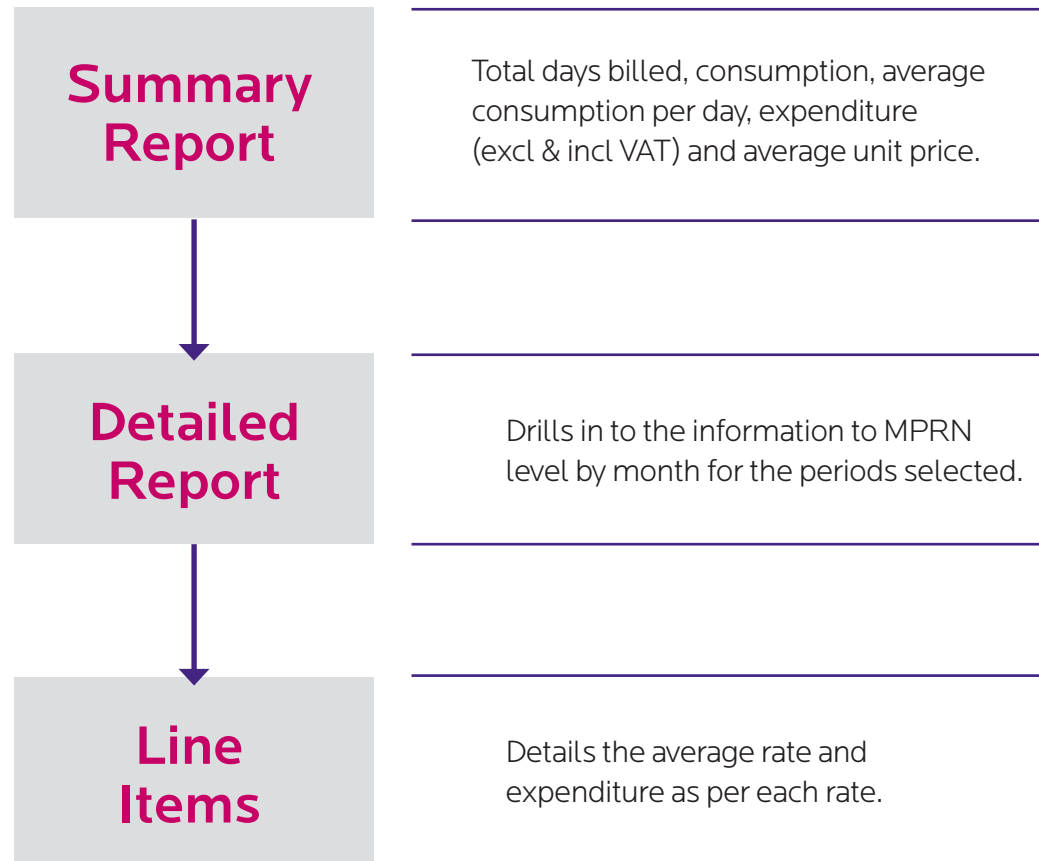

A key tool. By right clicking on the mouse, the user is given new options of how to view the report. Once an option is chosen, left clicking will produce the report with the new option. A example will be shown in the demonstration.

SECTION 2

Energia Online Premium
Detailed Reports

Increasing detail as required by the user.
Comparisons year on year.
Filter specific.
Users can use the + sign to expand information further.

Total days billed, consumption, average consumption per day, expenditure (excl & incl VAT) and average unit price.

Note rotation icon and the excel options with each report.

Power factor by MPRN

Allows user to compare Power Factor per half hour during each individual day. Click and drag under the red dotted line to detail the problem MPRN.

The screenshot shows the 'Half Hourly Data' section of the Energia web application. At the top, there are navigation tabs: Dashboard, Energy Expenditure, Energy Trends, Half Hourly Data (selected), Bill, HowTo, and Energy Consumption. Below the tabs is a 'Half Hour Consumption Read Calendar' with a grid for selecting a year (2017-2020) and month (Jan-Jul). A 'Filter' section on the right allows filtering by AccountID, AccountName, GMPRN, MPRN (HH Only), Tariff, CostCentreCode, Address, and Verified/Unverified/... (set to Verified). A 'Search Box' is also present. Below the calendar is a 'Days' grid (1-31). A 'HH Read Dates ...' button is visible.

The main chart, titled 'Power Factor by MPRN', shows a line graph for MPRN 10306327495. The y-axis represents Power Factor (0.7 to 1.1) and the x-axis represents HHReadTime (00:00:00 to 23:30:00). A red dotted horizontal line is drawn at 0.95, labeled '0.95' and 'Power Factor: threshold for IRL = 0.95'. The chart shows the power factor fluctuating around this threshold. On the right side of the chart, there are several interactive buttons: '1/2 Hourly Summary KWH', '1/2 Hourly Readings KWH', '1/2 Hourly Readings KW', '1/2 Hourly Readings KVA', '1/2 Hourly Readings kWh', and 'Power Factor'. At the bottom of the chart area, there are buttons for 'Trends', 'Day Comparison', and 'Power Factor Summary Ave.'. A disclaimer is visible at the bottom of the chart area.
